

DATA SHEET

AO 723F

Freelance hardware selector

The S700 I/O family can be used as direct I/O for AC 700F and AC 900F Freelance controllers or as PROFIBUS remote I/O with AC 700F, AC 900F, or other PROFIBUS Masters.

S700 I/O has a small footprint - the modules are featured with a high packing density, and several modules are available with inputs and outputs mixed in one module. These modules cover a wide variety of applications and give maximum flexibility. The S700 I/O is compliant with cULus and certified for installation in hazardous locations according to UL Class I, Division 2 (Groups A, B, C, and D).

The analog output module AO 723F comes with 16 output channels.

Features and benefits

- 16 analog outputs in two groups (1.0...2.7 and 3.0...4.7)
- as direct I/O and PROFIBUS I/O

General info		
Article number	3BDH000384R0005	
Туре	Analog Output	
Life cycle status	Active	
Number of channels	16	
Signal type	Analog Output	
HART	No	
SOE	No	
Redundancy	No	
Mechanics	\$700	

Detailed data		
Resolution	Voltage 10 V +10 V: 12 bits plus sign Current 020 mA, 420 mA: 12 bits Temperature: 0.1 °C (0.18 °F)	
Maximum field cable length	100 m	
Common mode voltage input	24 VDC	
Power dissipation	6 W	
Current consumption +24 V external	0.15 A	

Diagnostics	
Front LED's	40 LEDs for signals and error indication. One yellow LED per channel, the LED is ON when the input/output signal is high (signal 1).

Environment and certification		
CE mark	Yes	
Electrical safety	EN 50178, IEC 61131-2, UL 61010-1, UL 61010-2-201	
Hazardous Location	cULus Class 1 Div 2	
Protection rating	IP20	
Climatic operating conditions	Operation 0 +60 °C, Storage -40 +70 °C	
RoHS compliance	Directive 2011/65/EU	
WEEE compliance	DIRECTIVE/2012/19/EU	

Dimensions		
Width	67.5 mm	
Depth	76 mm	
Height	54 mm	
Weight	300 g
