

# TU 732F

## Freelance hardware selector

The I/O Terminal Units TU 731F (with screw-type terminals) and TU 732F (with spring-type terminals) are specifically designed for use with AC 700F/AC 900F/S700 I/O modules that incorporate 115-230 V AC inputs and/or 115-230 V AC relay outputs.

The input/output modules (I/O expansion modules) plug into the I/O Terminal Unit. When properly seated, they are secured with two mechanical locks. All the electrical connections are made through the Terminal Unit, which allows the removal and replacement of the I/O modules without disturbing the wiring at the Terminal Unit.

### General info

|                      |                       |
|----------------------|-----------------------|
| Article number       | 3BDH000381R0001       |
| Signal specification | I/O terminal unit     |
| Mechanics            | S700                  |
| Design               | Spring type terminals |

### Detailed data

|                           |                              |
|---------------------------|------------------------------|
| Common mode voltage input | 230 VAC                      |
| Supported wire size       | 0.08 ... 2.5 mm <sup>2</sup> |

### Environment and certification

|                    |   |
|--------------------|---|
| CE mark            | Yes   |
| Electrical safety  | EN 50178, IEC 61131-2, UL 61010-1, UL 61010-2-201 |
| Hazardous Location | cULus Class 1 Div 2                               |
| Protection rating  | IP20  |
| RoHS compliance    | Directive 2011/65/EU                              |
| WEEE compliance    | DIRECTIVE/2012/19/EU                              |

| <b>Dimensions</b> |         |
|-------------------|---------|
| Width             | 68 mm   |
| Depth             | 30 mm   |
| Height            | 135 mm  |
| Weight            | 0.17 kg |
